

Willow Trace Metropolitan District

Dear Residents of Willow Trace:

This November, you will see Ballot Issue 6G on your ballot regarding the future of Willow Trace Metropolitan District's operations mill levy, more commonly known as property taxes.

Is this a tax increase?

No. The District is seeking voter approval to extend the existing operations mill levy. This is not a request to increase your taxes — it is a continuation of the current operations mill levy rate.

What is the money used for?

The District uses these funds to provide maintenance services, including:

- Maintaining and improving landscaping throughout the neighborhood
- Repairing and replacing perimeter fencing
- Mowing and caring for our community's open space areas
- Servicing the community pet waste stations
- Providing snow removal on and adjacent to District property
- Providing holiday lighting

What does a yes vote mean?

The District's operations mill levy rate will stay the same.

What does a no vote mean?

The alternative would be to impose and bill regular fees to residents in order to provide the services listed above.
